

10th Annual Sustainability + Food Day Fair

(Wednesday & Thursday, October 18-19, 2017)

SAVE THE DATE

The Fair offers our campus community a chance to focus on important issues including environmental sustainability, climate change and food security, through a justice lens. Held in the Student Center, the Fair features two full days of teach-ins (schedule below), vendor tables showcasing green businesses and community groups, all-day film screenings, farmers' markets, BBQ and other food events, make-and-takes and other activities, a campus sustainability showcase, student competitions and much more.

Teach-in Schedule for Wednesday, October 18th
